

The 60 heart words on the Dolch lists from pre-K to 2nd grade. Your child sounds out the fair letters; each tinted part under a heart is the only part to learn by heart. Tick a word when your child reads it without sounding it out.

How to teach a heart word: say the word, tap one finger per sound, write a letter or chunk for each sound, then put a heart over the part that breaks the rules. Read it in a sentence the same day. **Hearts that come off:** find (-ind), little (-le), all (-all; no heart if your child already reads ball), know (kn), write (wr), work (w + or).
