The 46 Dolch second grade words in the order the sounds are taught. Most read by rule once their stage is in; a heart word has a part that does not play fair (sometimes two), tinted with a heart over it. Tick a word when your child spells it from dictation.

Dictation, five minutes a day: say a sentence, then one word at a time; your child taps the sounds, writes the word and hearts the tricky part. Four words a day, then one sentence with two of them. Reading is only half the job: a short passage with the week's words, read three times, is the other half.
